

Développeur Web

Pierre MINIGGIO, 06 32 01 03 14

pierre@miniggiodev.fr www.miniggiodev.fr

Software Development :

Back End Web : PHP, Symfony, Laravel, NodeJS, SQL

Front End Web : HTML, CSS, SASS, Materialize, Bootstrap
JS, TS, React, npm, yarn

Code Design : MVC, Procedural, Object, TDD, DDD

Web Scraping : Puppeteer

Content Generation : Remotion, Imagick, ffmpeg

Softwares I'm used to :

IDE : Sublime Text, VS Code, PHPStorm

Image manipulation : Paint.NET

Vidéo : Sony Vegas Pro, XSplit, OBS

Audio : FL Studio, Audacity

OS : Windows, Linux

Network and Telecommunication (Background) :

Windows : Active Directory

Linux : Setting up servers (Web, Email, Proxy, etc.)

Virtualization : Proxmox, VirtualBox

Router : Cisco routers configuration : VLAN, QOS, etc.

Languages :

English : Used everyday, likely C2

Spanish : Can read and write (A2 level)

Mandarin Chinese : Beginner (2 months)

Work Experiences :

Oct. 2019 + : SAFTI - Web Developer

Developing and maintaining tools used by 5000+ real estate agents and 200 headquarters' employees who support the agents (coaching, accounting, legal support, technical support)

Back : Refactoring old code and writing new one following TDD/DDD principles
Front : Building new interfaces using React, depreciating then removing old ones

Aug. 2018 - Aug 2019 : Agoravita - Web Developer

Developing showcase websites & CRM for clients

Social Medias and GA APIs, RGPD Compliance, Page Speed

Migrating code from a custom framework and PHP 5.6 to Laravel and PHP 7.2

Jan. - Apr. 2018 : Supervised project : Blog RTAI

Setting up a Wordpress website, Creating Wordpress Plugins

June 2017 : Rail Concept - 2 weeks internship

Frameworks Angular2 et Materialize

Apr. - Sep. 2016 : IT Tech - Internship

Préfecture de Vaucluse - SIDSIC department

Technical support, PC deployment,

Developed and set up the hosting of a web app managing supply orders

2015 - 2016 : Supervised project : Proxmox

Setting up a Proxmox server, virtual network, cloning virtual machines

Education :

2020 : Symfony Course

- 2 days Symfony course : An active contributor to the Symfony project welcomed us to the framework et explained us how some of the source code work.

- 2 days advanced Symfony course : dove through the framework's key concepts, and introduced us to Symfony's Compiler pass.

2018 : Bachelor's degree : LPRO RTAI (Responsable Technique d'Applications Internet)

Lycée post-bac Saliège - Université Toulouse 1 Capitole
HTML, CSS, JS, PHP, MySQL, Java, Bootstrap

2016 : University Diploma in Technology Réseaux et Télécommunications

Université Grenoble Alpes

HTML, CSS, PHP, MySQL, Python, Java, Java for Android,

Network related devices configuration,

Setting up various Windows, Linux servers (Web, Email, DHCP, Streaming...)

2014 : Baccalauréat Scientifique Spécialité Mathématiques

Option Musique - Mention Assez Bien

Lycée Jean Vilar à Villeneuve-lès-Avignon

Discovering HTML on my free time

Things I like to do in my free time :

Dev : Side projects : Built a web video editing software, Web scraping, APIs

Social Medias : Building Youtube channels

Managing dev' communities : "Les codeurs nomades" (FB), "Graven Développement" (Discord)

Music : Guitar, Bass, Music Production

Languages : Taught myself 🇬🇧, currently learning other languages : 🇨🇳, 🇪🇸
