

Software & Agentic Developer

Pierre MINIGGIO +33 6 32 01 03 14

pierre@miniggiodev.fr www.miniggiodev.fr

Software Development :

Back End Web : PHP, Symfony, Laravel, NodeJS, SQL
Front End Web : HTML, CSS, SASS, Materialize, Bootstrap
JS, TS, React, npm, yarn
Code Design : MVC, Procedural, Object, TDD, DDD
Methodology : Agile, Scrum
Web Scraping : Puppeteer
Content Generation : Remotion, Imagick, ffmpeg
Coding with AI : Claude, ChatGPT, Gemini API

Languages :

🇫🇷 Native
🇺🇸 C2
🇪🇸 B1 (Not well maintained)
🇨🇳 A2
🇩🇪 Beginner

Work Experiences :

Sept. 2025+ : Miniggiodev - Developer

Coding projects involving AI, and lots of traveling and adventures !
Password Manager, Loan & Investment Simulator, Wealth tracker, etc.
Implementing AI into code design processes & for non-coding purposes

Oct. 2022 - Sept. 2025 : SantéVet - Developer Analyst

Developing and maintaining tools used by employees & partnered veterinarians
*Rewriting legacy code from monolith to microservice based code on AWS
Implementing TDD/DDD practices*

Oct. 2019 - Oct. 2022 : SAFTI - Web Developer

Developing and maintaining tools used by 5000+ real estate agents
and 200 headquarters' employees who support the agents
(coaching, accounting, legal support, technical support)
*Back : Refactoring old code and writing new one following TDD/DDD principles
Front : Building new interfaces using React, depreciating then removing old ones*

Aug. 2018 - Aug 2019 : Agoravita - Web Developer

Developing showcase websites & CRM for clients
*Social Medias and GA APIs, RGPD Compliance, Page Speed
Migrating code from a custom framework and PHP 5.6 to Laravel and PHP 7.2*

Jan. - Apr. 2018 : Supervised project : Blog RTAI

Setting up a Wordpress website, *Creating WordPress Plugins*

June 2017 : Rail Concept - 2 weeks internship

Frameworks Angular2 et Materialize

Apr. - Sep. 2016 : IT Tech - Internship

Préfecture de Vaucluse - SIDSIC department
Technical support, PC deployment,
Developed and set up the hosting of a web app managing supply orders

Infrastructure :

Linux : Setting up servers : Web, Database, Email, Proxy, etc.
AWS : VTL, IAM, Lambda, API Gateway, etc.
Storage : SQL, NoSQL, files, etc.

Softwares I'm used to :

IDE : Sublime Text, VS Code, PHPStorm
Image manipulation : Paint.NET
Vidéo : Sony Vegas Pro, XSplit, OBS
Audio : FL Studio, Audacity
OS : Windows, Linux

Network and Telecommunication (Background) :

Windows : Active Directory
Virtualization : Proxmox, VirtualBox
Router : Cisco routers configuration : VLAN, QOS, etc.

Education :

2026 : Mandarin Chinese Diploma

Yet Another Fangirl - Yeh Renfong
Once a month 1 on 1 class with a teacher
Vocabulary, sentence structures, reading, listening, speaking, Taiwanese culture

2020 : Symfony Course - Sensio Labs

*- 2 days Symfony course : An active contributor to the Symfony project welcomed us to the framework et explained us how some of the source code work.
- 2 days advanced Symfony course : dove through the framework's key concepts, and introduced us to Symfony's Compiler pass.*

2018 : Bachelor's degree : LPRO RTAI (Responsable Technique d'Applications Internet)

Lycée post-bac Saliège - Université Toulouse 1 Capitole
HTML, CSS, JS, PHP, MySQL, Java, Bootstrap

2016 : University Diploma in Technology Réseaux et Télécommunications

Université Grenoble Alpes
*HTML, CSS, PHP, MySQL, Python, Java, Java for Android,
Network related devices configuration,
Setting up various Windows, Linux servers (Web, Email, DHCP, Streaming...)*

2014 : Baccalauréat Scientifique Spécialité Mathématiques

Option Musique - Mention Assez Bien
Lycée Jean Vilar à Villeneuve-lès-Avignon
Discovering HTML on my free time

Things I like to do in my free time :

Dev : Side projects, examples : [Built a web video editing software](#), [Web scraping](#), [APIs](#)

Social Medias : Building Youtube channels, Managing a dev community : "Les codeurs nomades" (FB)

Music : Guitar, Bass, Music Production

Languages : Taught myself 🇺🇸, currently learning other languages : 🇪🇸, 🇨🇳, 🇩🇪
